

Bookkeeper Murphy told the Board that the Crier delivery route will be split between several families, taking different months or routes, to be determined later.

A homeowner wanted a letter published in the Crier about poop in garbage cans; Bookkeeper Murphy will send that person an email about not publishing anonymous letters.

Bookkeeper Murphy received a \$300 cash donation from producers filming a commercial in the neighborhood. It has been put into the General Fund.

**Safety** – There was a discussion about speeding on Lower Revere. President Novak had received a call from a battalion chief who had been told of the concerns. Novak will ask the battalion chief to come and talk to residents at the next Board meeting.

**Easter Egg Hunt** – All went well.

**Picnic** – No report. President Novak will reach out to Diane Russell about this year's picnic.

**Additional Maintenance Needs** – Parks Chair McManus mentioned that Bookkeeper Murphy obtained two bids for the concrete jobs to fix trip and fall hazards in Onset Park. Board approved the job in 2016. Murphy recommended and McManus agreed to going with the American Asphalt bid. McManus also mentioned that a homeowner was concerned about pesticides in our parks. She proposed a blurb for the Crier. After some discussion, it was "Sheffield Village uses a landscaping company to maintain our two community parks. They do landscaping work at each park on alternating Thursdays. If needed, they may use the industry-standard, non-toxic Roundup herbicide to reduce weed growth. If you'd like more information, we can share the safety sheet provided to us by the company."
